

ASSURE CONTROLS MOVES INTO MIRA COSTA COLLEGE'S TECHNOLOGY CAREER INSTITUTE (TCI)

Carlsbad, California, May 5, 2015 – Assure Controls is pleased to announce it has relocated to the newly completed Technology Career Institute (TCI), part of the MiraCosta College's expanding role in the region. The TCI is a new, comprehensive technology training program, located in Carlsbad. The 27,000 square foot facility was established to train a qualified workforce for North County's most-needed technology positions in the areas of biotechnology, maritime technology, robotics, and related automation technologies. The curriculum ensures training on the latest developments in today's evolving technology fields.

For almost 80 years, MiraCosta College has partnered with North County businesses, industry associations, and workforce training organizations to prepare students for local workforce demands. As a member of The Maritime Alliance, Assure Controls is an in-house example of innovative technology within the maritime industry, a key aspect of the TCI strategy to partner with industry.

This location will serve as the headquarters for Assure Controls corporate offices. Assure is enthusiastic about continuing and building the relationship with the TCI. Assure Controls will serve as an example company, having an open door policy for interns, guests and students to observe our unique position in the maritime industry.

New Address:

Assure Controls, Inc.
2075 Las Palmas Drive
Carlsbad, California 92011
